## Appendix 5 : Grants and funding – continued

### Ongoing projects funded in previous years

In the majority of cases, the following projects were previously funded by the Commission through the provision of a one-off payment. This payment is held in trust with the interest used to fund the ongoing operations of each project. The progress of these projects is monitored through regular activity reporting.

- Royal Australian College of General Practitioners Research Fellowship
- Royal Australasian College of Physicians Research Fellowship
- Royal Australasian College of Surgeons Research Fellowship
- University of Queensland
  - School of Health and Rehabilitation Sciences Research Fellowship
  - Teaching and Community Services Rehabilitation Research Fellowship

### Research centres

The two MAIC funded research centres (CONROD and CARRS-Q) produce six monthly activity and financial reports covering the research conducted within the centres and providing details on projects funded through other competitive grant processes.

Further information on CARRS-Q and CONROD's research and activities is available by visiting [www.carrsq.qut.edu](http://www.carrsq.qut.edu) and [www.uq.edu.au/conrod](http://www.uq.edu.au/conrod).

### Sponsorship Program

MAIC also provided \$96,094 through its sponsorship program for events or activities which demonstrate benefits to the CTP scheme and its stakeholders in 2010/11. Of these allocations, Spinal Injuries Association of Queensland received \$25,000 towards subsidising the operations of the Spinal Education Awareness Team (SEAT) and a one-off allocation of \$10,000 to purchase equipment for SEAT presenters. \$25,000 was also provided to the University of Sydney towards costs of maintaining PEDro, a free database of over 19,000 randomised trials, systematic reviews and clinical practice guidelines in physiotherapy.
