

DRIVE SAFE DRIVE DEADLY

Even when you make all the right choices there's a chance you could still be involved in an accident

Your car's registration gives you your compulsory third party insurance (CTP insurance)

CTP insurance will help your passengers or anyone else hurt to get the help they need

If the accident wasn't your fault, your CTP will help you get strong again

If you have been in an accident recently and you are not sure what to do you can call the Aboriginal and Torres Strait Islander Legal Service (ATSILS)
Free Call **1800 012 255**
and have a yarn with someone that will help you out
