

Investing in road safety and rehabilitation

We support research and education activities that contribute to an effective CTP insurance scheme. This investment ranges from initiatives focused on decreasing the number of road crashes that occur, through to providing appropriate rehabilitation and disability support. Learn more about the initiatives we support below.

Rehabilitation

Brain injury

- Metro South Hospital and Health Service (MSHHS) – Transitional Rehabilitation Service
- Queensland Brain Institute – Professorial Fellowship
- Queensland Children's Hospital (University of Queensland) – program for childhood traumatic brain injury in Queensland

Rehabilitation services

- University of Queensland (UQ) – RECOVER Centre
- Griffith University (GU) – The Hopkins Centre
- MSHHS – Transitional Rehabilitation Service
- Spinal Life Australia (SLA) – Back2Work vocational rehabilitation program
- SLA – Healthy Living Centre Cairns
- Bionics Queensland

Spinal cord injury

- GU – Spinal Cord Therapy research
- SLA – Spinal Education Awareness Team
- SLA – Back2Work vocational rehabilitation program
- GU – BioSpine (Spinal cord neural restoration technology)
- SLA – Healthy Living Centre Cairns

Data linkage/management

- Queensland University of Technology (QUT) – Data Linkage Fellowship
- Department of Transport and Main Roads – Road Safety Data Bureau

Musculoskeletal injuries and pain

- UQ – Whiplash Clinical Pathway
- UQ – RECOVER Centre

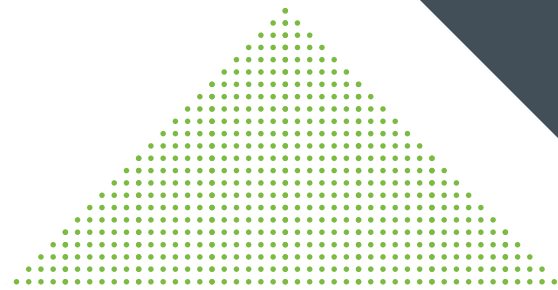

Acute care

- Metro North Hospital and Health Service (MNHHS) – Jamieson Trauma Institute
- MNHHS – Associate Professor Cliff Pollard Trauma Fellowship

Innovative solutions

- GU – BioSpine (Spinal cord neural restoration technology)
- Bionics Queensland

Road safety

Young drivers

16-25

- University of Sunshine Coast (USC) – SAFER driver programs
- Police Citizens and Youth Welfare Association – Braking the Cycle learner driver mentor program

Motorcyclists

- Transport New South Wales – MotoCAP motorcycle safety gear ratings

Older drivers

60+

- UQ – Assessing older drivers pilot

Heavy vehicles

- Queensland Trucking Association – driver monitoring pilot
- GU – Healthy Heads in Trucks & Sheds mental health research

Tailgaters

- Sunshine Coast Council – Reducing rear-end collisions

Autonomous and cooperative vehicles

- Department of Transport and Main Roads – Cooperative and Autonomous Vehicles Initiative

Impaired driving

- USC – Road Safety Research Collaboration incorporating specialised drug driving unit

All road users

- QUT – Centre for Accident Research and Road Safety – Queensland (CARRS-Q)

Regional drivers

- QUT – fatal and serious crash analysis by region
